Summary

I am computer science enthusiast and loved to learn, how it came to be, the working of a program and so much more, which is what got me it to where I am now.

I have won countless certificates for coding competitions held near me. I am currently in college learning web and app development with a little machine and deep learning courses from Kaggle and Coursera.

I aim to immerse myself in many things and experience things while I am still young and still able to take risks and learn from past-failures.

Experience

Student

VIT Bhopal University

Sep 2021 - Present (1 year 8 months)

Education

Naipunnya Public School - India

High School Diploma

2013 - 2020

Vellore Institute of Technology

Bachelor of Engineering - BE, Computer Systems Networking and Telecommunications

Sep 2021 - Present

Licenses & Certifications

 **Intro to Machine Learning** - Kaggle

Python - Kaggle

Intro to Programming - Kaggle

 **Intro to MySQL** - Kaggle

Applied Machine Learning in Python - University of Michigan

Skills

Cascading Style Sheets (CSS) • C++ • Engineering • English • Communication • Python
(Programming Language) • Video Games • MySQL • HTML • JavaScript
